unit weight:	6 lbs 2.7 kg
box weight:	7.5 lbs 3.4 kg

The Livid Ohm64 is an adaptable MIDI control surface designed to give you hands-on creative control over your performance. High-quality sliders, knobs and buttons provide the interface for you to put the feeling into your performance whether you're mixing samples and synths or DJ'ing a cutting-edge set. A gorgeous body of hand-finished wood the quality is felt down to your fingertips. Dual rail faders and programmable backlit rubber buttons connects you to your mix.

The Ohm64 has bi-directional "talkback" communication allowing the controller to talk to your software, and software to your controller. MIDI messages can be sent to the Ohm64 to light up the buttons for an interactive performance. The Ohm64 is completely USB powered and class-compliant so no drivers are required
